ABOUT THE UNIVERSITY

(ARNI OFF CAMPUS)

Dr. M.G.R. Educational & Research Institute (Deemed to be University), accredited with NAAC A+ grade, has established its Arni Off-Campus in Tiruvannamalai District, Tamil Nadu. The campus spans 2,50,000 sq. ft. with modern infrastructure, library, hostels, and student amenities. We offer UG, PG, and research programs across Engineering, Arts & Science, Commerce, Management, Physiotherapy and Allied Health Sciences. The campus focuses on holistic education, innovation, and research to meet industry needs. Located at ACS Nagar, Irumbedu, Arni, it provides excellent academic and professional opportunities.

ABOUT CENTRAL RESEARCH FACILITY (CRF)

The Central Research Facility aspires to emerge as a globally recognized center of innovation, committed to advancing interdisciplinary research that contributes to societal development, technological excellence, and environmental sustainability. It emphasizes cutting-edge research across Biosciences, Engineering, and Healthcare fostering industry-oriented innovations while attracting international collaborations, distinguished talent, and competitive research funding. The facility promotes incubation and entrepreneurship through innovation hubs that enable students and faculty to translate research outcomes into viable solutions addressing real-world challenges.

CORE RESEARCH AREAS IN CRF

MATERIAL SCIENCE & NANOTECHNOLOGY

POLYMER NANOCOMPOSITES AND ITS APPLICATIONS

INTEGRATED BIOREMEDIATION PROCESSES

3-D PRINTING

BIOSENSORS

BIOINFORMATICS

MOLECULAR BIOLOGY

ABOUT THE CONFERENCE

The 3-Day International Conference on **“SYNERGIZING ARTIFICIAL INTELLIGENCE AND CLASSICAL RESEARCH IN BIOSCIENCES, ENGINEERING AND MATERIAL SCIENCE” - ELEVATE-2026** is conceived as a premier global forum to bring together researchers, academicians, scientists, industry professionals, and young innovators to exchange knowledge and showcase cutting-edge research outcomes. It is a multi-disciplinary forum designed to bridge the gap between traditional scientific methodologies and rapidly evolving field of AI. The 2026 edition of this conference is typically structured to move beyond simple AI applications but instead focus on trustworthy discoveries. The primary goal is to foster an ecosystem where the rigor of classical research meets the predictive power of AI. The interdisciplinary theme is believed to break silos between biologists, material scientists and software engineers, spanning fundamental research to practical applications.

ABOUT THE UNIVERSITY DEPARTMENTS

- The **Faculty of Engineering & Technology (FET)** at Dr. M.G.R. Educational and Research Institute is a premier technical education wing which is widely recognized for its robust research ecosystem and strong industrial ties.
- The **Faculty of Humanities & Science** at Dr. M.G.R. Educational and Research Institute (MGR ERI) is a multidisciplinary wing that emphasizes holistic education, blending traditional academic disciplines with modern, skill-based vocational training.
- The **Faculty of commerce** at Dr. M.G.R. Educational and Research Institute (Deemed to be University) is a prominent department focused on bridging the gap between academic theory and industrial application.
- The **Faculty of Information Science and Cyber Forensics** academic program integrates foundational principles of information science with advanced training in cyber security, digital forensics, data protection, and ethical hacking.
- The **Faculty of Physiotherapy** is committed to train skilled physiotherapists essential for patient care, rehabilitation, preventive services and to foster interdisciplinary collaboration and advancing global rehabilitation standards.
- The **Faculty of Allied Health Sciences** is dedicated to developing competent healthcare professionals who play a crucial role in patient care, diagnosis, rehabilitation, and preventive health services.
- The **Faculty of Management Studies** equips the students in the process of planning, organizing, leading, and controlling an organization's resources by making strategic decisions, managing people, and ensuring smooth business operations.

THRUST AREAS

Generative AI for molecular design | AI in life sciences and health care | Biochemical language models | AI enhanced gene editing | Digital therapeutics | Material science & nanotechnology | Polymer | Nanocomposites | Nanomaterials in medicine | 3D printing | Biosensors | AI and Machine Learning | Computational genomics | IoT & Smart Systems Bioinformatics | Structural biology | Green Chemistry | Data Science

TARGET AUDIENCE

Academicians | Researcher Scholars | UG and PG Students | Data scientists | Industry professionals

EXPECTED OUTCOMES

- 1. Publication opportunities:** Selected high quality papers will be published in **Scopus indexed** IEEE Xplore Digital Library through our associated conference partners and publishers (Scopus indexed) with additional cost.journals or conference proceedings (**Springer, IEEE, Elsevier**).
- 2. Collaborative network** among research community
- 3. Establishing open science networks** where data from classical experiments is shared to train more robust AI models between researchers and engineers.

GUIDELINES FOR POSTER

The poster presentation is open to undergraduate and postgraduate students, faculty, and research scholars in biosciences, materials science, computer science and allied health sciences. Each participant is allowed to present only one poster as first author/co-authors. Abstracts must be submitted online before the deadline and should be 200–250 words in a structured format. Only original work is accepted. Any form of plagiarism will lead to immediate disqualification.

- Posters must be prepared as e-posters in landscape orientation with a minimum body text font size of 24 points.
- Mandatory poster sections include Conference theme (**ELEVATE 2026**) on top followed by Title, Authors, Institution, Introduction, Objectives, Methods, Results, Conclusion, and references if applicable.
- For poster template refer the conference website : www.drmgrduaoconference.com
- Each presenter will get 5-7 minutes for presentation followed by 2 minutes of query discussion.
- The presenting author must be physically present, and proxy presentations are strictly not allowed.
- Posters will be evaluated based on originality, scientific rigor, visual clarity, relevance to the field, and query - response.
- Conference registration is mandatory, (Before the last date) and any misconduct such as plagiarism or data falsification will result in disqualification, with the committee's decision being final.

GUIDELINES FOR PAPER

The paper presentation is open to undergraduate and postgraduate students, faculty, and research scholars in biosciences, materials science, computer science and allied health sciences. Each participant can present only one paper as first author / co-authors.

- Abstracts must be submitted online before **15.06.2026** and should be 150–250 words in a structured format.
- Submitted abstracts must be original work; plagiarism will lead to immediate disqualification.
- Accepted abstracts will be communicated to authors via email by the organizers
- Once accepted authors should send the registration details with payment confirmation for further process
- Each presenter is allotted 6 minutes for presentation followed by 2 minutes for query session.
- Presentations must be in PowerPoint format, delivered in English, and the presenter must be physically present.
- Papers will be evaluated based on originality, scientific rigor, clarity, relevance to the specified field.

NOTE: Visit www.drmgrduaoconference.com for other E-poster & Paper presentation Specifications
